

## **INVIRTU Hand Foam Sanitiser**

Encouraging good hand hygiene practice and building compliance is key in preventing the spread of infection.

INVIRTU is the trusted alternative to alcohol-based hand sanitiser, as used by the **NHS**.

Formulated to reduce the transmission of bacteria and viruses and without damaging skin, INVIRTU alcohol free Hand Foam Sanitiser is proven to be as effective as alcohol sanitisers, with many additional benefits.

## INVIRTU

- Kills 99.99% of harmful bacteria and viruses fast, including enveloped viruses
- . Is dermatologically tested and clinically proven not to dry hands with repeated use
- Keeps working when dry to protect against bacteria between washes
- Maintains the natural pH balance of your skin
- Being alcohol-free, INVIRTU is non-flammable
- Is colour and fragrance-free, non-taint
- Suited for use with a range of gloves

**Exceptional Antimicrobial Efficacy:** 

- EN 1500 (hand rub disinfection, E.coli)
- EN 13727 (bactericidal)
- EN 1276 (bactericidal)
- EN 13624 (yeasticidal, C. albicans)
- EN 14476 (H1N1, Rotavirus)
- EN 1650 (yeasticidal)
- Kills 99.99% of common germs, viruses and harmful bacteria (Inluenza A\*, MRSA, Rotavirus, E.coli)
- Prolonged antimicrobial effect
